WORK EXPERIENCE:

BEAMER x USERFLOW:

SDE-1

November 2023 - Present

- Led the migration of the authentication system from JSP to React, improving reliability and UX and driving a **32% increase** in user signups.
- Modernized the billing system by migrating JSP-based flows to **React.js**, integrating Stripe, supporting proration and Upgrade/Downgrade states, improving maintainability and reducing billing-related UI issues.
- Delivered a unified dashboard frontend using React.js, implementing reusable UI patterns and **React Query** caching to keep data consistent and minimize redundant network calls.
- Built and shipped Post Templates with a React frontend and **Java/Hibernate + MySQL** persistence layer, achieving **~18% adoption**.
- Built an AI-powered content generator for changelog posts, reducing friction in content creation and achieving **~21% feature usage**.
- Led improvements to NPS tooling by expanding backend schemas and adding automated jobs via **Google Cloud Functions** (cron-triggered), improving reporting reliability and operational workflows..
- Resolved **120+** support issues, improving product stability, edge-case handling, and overall customer experience.

MOVATE TECHNOLOGIES:

Developer

July 2022 - August 2023

- Developed responsive web interfaces using React.js and TypeScript for enterprise applications used by 500+ internal users.
- Modified an existing chatbot using AWS Lex, enhancing user interaction and integrating it with ReactJs.
- Conducted unit test cases and performed impact analysis for the integrated solution.
- Collaborated with cross-functional teams to implement user requirements, ensuring a seamless UX/UI.
- Translated design mockups from Figma into appealing web interfaces.

CSS CORP:

Internship Trainee

Jan 2022 - June 2022

- Acquired knowledge of SDLC, Agile, and Scrum methodologies, enhancing project coordination.
- Engaged in web application development using Java, HTML, CSS, and JavaScript, while also showcasing effective code collaboration through Git version control.

SKILLS:

Frontend: HTML | CSS | JavaScript | jQuery | Reactjs | TypeScript | Nextjs | Tailwind CSS | Stylus | React Query | CRX |

Backend: Nodejs | Mysql | MongoDB | Git | Java | REST Api | GraphQL | Postgres |

Tooling: Vite | Webpack | ESLint | Prettier | Vitest | Figma |

Languages: English | Tamil | Hindi | Dhakni |

EDUCATION:

Dr. Mahalingam College of Engineering and Technology

June 2018 - May 2022

Bachelor of Computer Science Engineering

7.8/10

Relevant Coursework: Data structures & Algorithms, Database management, Web development, Software Engineering, Artificial Intelligence.
